

## KUZNESKI INNOVATION CUP

# Winners

**\$10,000**

### **Alpha Biome**

*Shanae Butler (ENGR PhD '25) & Tolani Akinrinoye (MBA)*

Alpha Biome's Idea: To design a product specifically formulated for improving gut health among black women. They use new studies to address distinct characteristics of gut bacteria in black women.

**\$8,500**

### **Forevergreen**

*Jack Pearson (CBA '25), Joe Pearson '27, & Zack Yardley*

Forevergreen's Idea: Forevergreen is a service that makes it easier to become carbon neutral. By using their carbon calculator, users can calculate their monthly emissions and choose to offset those emissions. Their end goal is ease of access for users and trustworthy carbon removal.

**\$3,500**

### **Panda Pantry**

*Ian Chang (CBA '25) & Hannah Ye (CBA '25)*

Panda Pantry's Idea: A specialty vending machine that is able to dispense hot meals in seconds.

**\$1,500**

### **ECE LabBox**

*Yan Wang (Nursing PhD) and Sabit Hassan (SCI PhD '25)*

ECE LabBox's Idea: ECE LabBox is an all-in-one electronics toolkit designed for students and innovators to make learning about ECE topics easier. Currently, the app has features to simplify projects in ways that's currently not on the market.
